# OFICERI IM I VOGËL MY PETIT OFFICER

Shfaqja teatrore "Oficeri im i vogel" eshte drame psikologjike, ge trajton pasojen e nje oficeri i cili mbetet i palevizshem nga nje termet i fuqishem. Me kete rast ne kete fatkeqesi natyrore peson djali i tij i vetem i cili vdes ne kete fatkeqesi natyrore. Oficeri kurrsesi nuk e pranon kete fakt qe i ka sjellejeta. Ai nuk don ta varrose djalin e tij te vetem sepse nuk don ta bei "Ushqim per krimba" siq deklarohet ai per femijen e vet te vetem. Oficeri e ka rrite vet femijen pasi qe gruaja e tij kishte vdekur ne lindje te djalit te tyre te vetem, vetem qe te shpetoje femiu i tyre. Dilema e oficerit se mos ka qene mekatuese "vepra" e tij si oficer ne luftuerat qe ka zhvilluar eshte nje nga pyetjet dhe shtjellimet baze te kesaj shfaqje?! Sado qe ai para kufomes se djalit te tij apo "pluhurit te tij" arsyetohet se ai ka luftuar vetem per "Lavdine..." dhe se kurre nuk artileruar ne femije...?!

Theatrical play "My Petit Officer" is a monodrama, respectively a professional theatrical mono-performance. It treats the consequences of an officer who remains immobile due to a devastating earthquake. His only son died in this natural disaster. The Officer does not accept this fact that life fetched to him. He refuses to bury his only son because he does not want to "make of him food for worms", as he pronounces for his only child. The Officer raised his son on his own as his wife has passed away while giving birth to their son, only to save their child. The Officer's dilemma whether his "action" might have been sinful in the wars he had carried out, is one of the major questions and base discussion of this play?! Though he reflects in front of his son's corpse or his "ashes" that he fought the wars only for the "glory..." and that he had never shelled on children...?!
